

THERM.\LUX

RESHAPING WELLNESS, DEFINING LUXURY

A NEW SAUNA CONCEPT
IS BORN

Thermalux, a proud Belgian brand

Since 2009, Thermalux has been revolutionizing the classic sauna design into a modern, cube-shaped style. With a focus on innovation and continuous development, we constantly explore new materials and possibilities to create unique sauna designs. Each sauna we produce is not only visually appealing but also a technical wonder, incorporating high-level engineering. We strive for top quality in a world where luxury is a way of life. At Thermalux, we understand that a sauna is more than just a product; it is a lifestyle choice. That is why we prioritize customer satisfaction and offer a wide range of customization options to meet your specific requirements.

Mario Mertens,
FOUNDER

A close-up photograph of a wooden plank, likely part of a deck or railing. The wood has a warm, light brown tone and a visible grain. The plank is set against a background of darker, similar wooden planks. The text "THERM. ILUX" is engraved in a clean, sans-serif font on the surface of the plank. The lighting is soft, highlighting the texture of the wood.

THERM. ILUX

5 Collections

Choose from our 5 collections to embark on your personal sauna design journey. Opt for an aluminium cladding that matches the color of your home's windows or your patio cover. Or dare to be different with a luxurious golden sauna or one with an attached green storage room. If you prefer the Ibiza style, go for a sauna in Mortex®. And for those who love the warmth and natural charm of wood, we offer a selection of special colors to truly make your sauna stand out.

6 Models

Choose from six models to start your sauna journey. Pick a standard model, one with an overhang for shoes and robes, or add a changing room for extra comfort. Include a shower to enhance your wellness experience, or a storage space for garden or pool supplies. Looking for more? Combine features into an all-in-one unit.

collection 1

PUU COLLECTION

Available in: Sauna, bio, infrared, combi, sudorium, steam room

Sustainable by nature, durable by technology.

Thermowood pine or ayous inside and outside.

Color: Built in

6 Models

KUUBI

Basic model

For **outdoor & indoor**

KAULUS

With 60 cm overhang

For **outdoor**

LUKKI

With 90 cm shower or dressing room at the front

For **outdoor**

VETTA

With 100 cm shower or dressing room at the side

For **outdoor & indoor**

PARVI

With storage room (other functions possible)

For **outdoor**

FUUSIO

Combination of functions

For **outdoor & indoor**

Key Features

Solid wood: Made from 20 mm locally sourced thermowood, steam-treated to remove resin and resist insects and fungi – used both inside and out.

Durable: Eco-friendly, moisture- and temperature-resistant, perfect even for coastal climates.

Strong construction: Built on a sturdy SLS timber frame, just like a timber-frame house.

Excellent insulation: Double-walled with glass wool for excellent thermal and sound insulation.

Comfortable seating: Smooth, hygienic, splinter-free ayous benches in matching thermowood.

High-quality finish outdoor: EPDM rubber roof, hidden rainwater drainage. All sides are finished in the same refined look.

Unique colors: Choose from 21 colors to fully customize your sauna, inside and out.

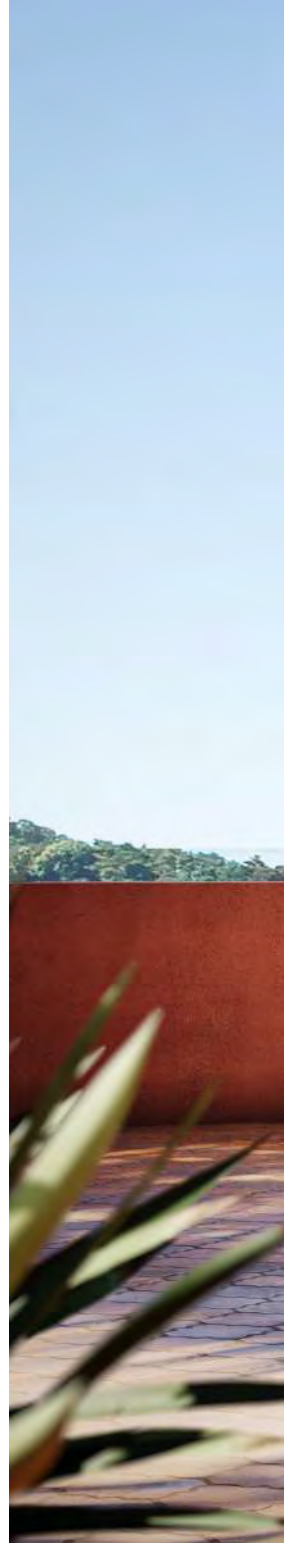

collection 2

MIX COLLECTION

Available in: Sauna, bio, infrared, combi, sudorium, steam room

The best of both worlds.

Thermowood ayous inside, aluminium outside.

Color: RAL 8024

Color: Brushed Copper

For **outdoor & indoor**

PARVI

With storage room (other functions possible)

For **outdoor**

FUUSIO

Combination of functions

For **outdoor & indoor**

Key Features

Premium materials: The interior is crafted from 20 mm thick thermally modified ayous wood. Durable, resin-free, and naturally resistant to insects and fungi. Unlike thin glued panel wood, this solid wood ensures lasting quality. Benches are splinter-free and smooth to the touch.

Weatherproof exterior: The coated aluminium cladding is UV-resistant, colorfast, and built to withstand extreme weather. Ideal for long-term outdoor use.

Low maintenance: The aluminium exterior requires minimal upkeep and retains its refined look for years.

Robust structure: Built on a solid SLS timber frame, just like a timber-frame house, ensuring strength and durability.

High insulation rate: Double-walled with glass wool for excellent thermal and acoustic insulation.

Premium finish outdoor: Durable EPDM roofing and hidden rainwater drainage. All sides are finished in the same refined look.

Custom colors: Available in all RAL colors and over 15 special finishes, including corten steel and concrete effect.

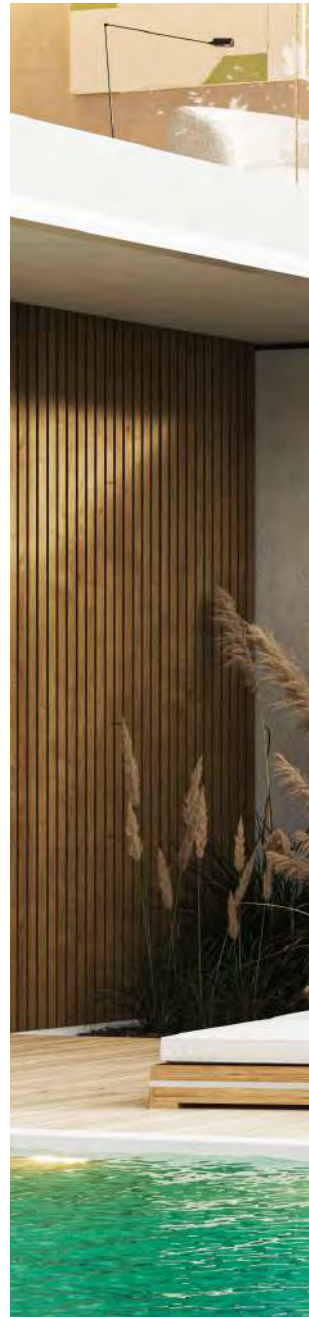

collection 3

ALU COLLECTION

Available in: Sauna, bio, infrared, combi, sudorium, steam room

**Lifting your sauna experience
to a whole new level.**

Composite and thermowood ayous inside, aluminium outside.

Color: White mat

Color: Built in

For **outdoor**

FUUSIO

Combination of functions

For **outdoor & indoor**

Key Features

Weatherproof aluminium: High-quality coated aluminium that won't rust, fade, or degrade – even with heavy use or in coastal environments.

Low maintenance: Both inside and out, the sauna is easy to clean and built to stay in top condition with minimal effort.

Streamlined infrared option: When fitted with infrared, the sauna features a sleek design with uniquely embedded, invisible heaters.

Durable materials: Interior walls combine composite panels with solid 20 mm thermowood ayous – no thin or glued panels here.

Strong construction: Built on a solid SLS timber frame, like a timber-frame house, for long-lasting stability.

Efficient insulation: Double-walled and fully insulated with glass wool for excellent thermal and acoustic performance.

Color options: For the interior, choose between white or black composite with ayous slats for a modern, clean look. The exterior is available in a glossy or matte finish, in either white or black.

Refined finish outdoor: Finished with EPDM roofing and hidden drainage. Allround aluminium cladding on all sides for a clean, modern look.

Color: mirror

collection 4

MIR COLLECTION

Available in: Sauna, bio, infrared, combi, sudorium, steam room

Invisibly beautiful.

Thermowood ayous inside, mirror aluminium outside.

Color: mirror

(other functions possible)

For **outdoor**

FUUSIO

Combination of functions

For **outdoor & indoor**

Key Features

Unique mirror effect: Exterior in mirrored aluminium (not glass), reflecting the surroundings naturally and stylishly – unlike dark tinted glass, it blends in beautifully without standing out.

Built for privacy: At dusk or in the dark, you remain unseen from the sides and back. The interior walls stay warm to the touch, so you can lean back comfortably.

Solid wood interior: Inside, 20 mm thick thermowood (not thin glued panels) offers lasting quality, warmth, and natural radiant heat.

Weatherproof & durable: Coated aluminium exterior resists UV, corrosion, and harsh weather – just like in our ALU and MIX collections.

Low maintenance: Aluminium surfaces are easy to clean and built to last.

Strong structure: Timber-frame base in solid SLS beams ensures long-term strength and stability.

Full insulation: Double-walled with high-performance glass wool for thermal and acoustic comfort.

High-end finish outdoor: Finished with EPDM roofing and hidden drainage. Allround aluminium mirror cladding on all sides for a clean, modern look.

FUUSIO

Combination of functions

For **outdoor & indoor**

Key Features

Durable finish: Made with real Mortex® microcement – the same high-end, seamless material used in kitchens and bathrooms.

Shock-resistant, moisture- and dirt-repellent, and built to last. Ayoux wood benches are used on the inside for comfortable, hygienic seating.

Low maintenance: The mineral-based surface is easy to clean and highly resistant to daily wear – easy to clean.

Sustainable choice: By limiting wood use and opting for mineral-based cladding, this collection offers a more eco-conscious design without compromising on warmth or style.

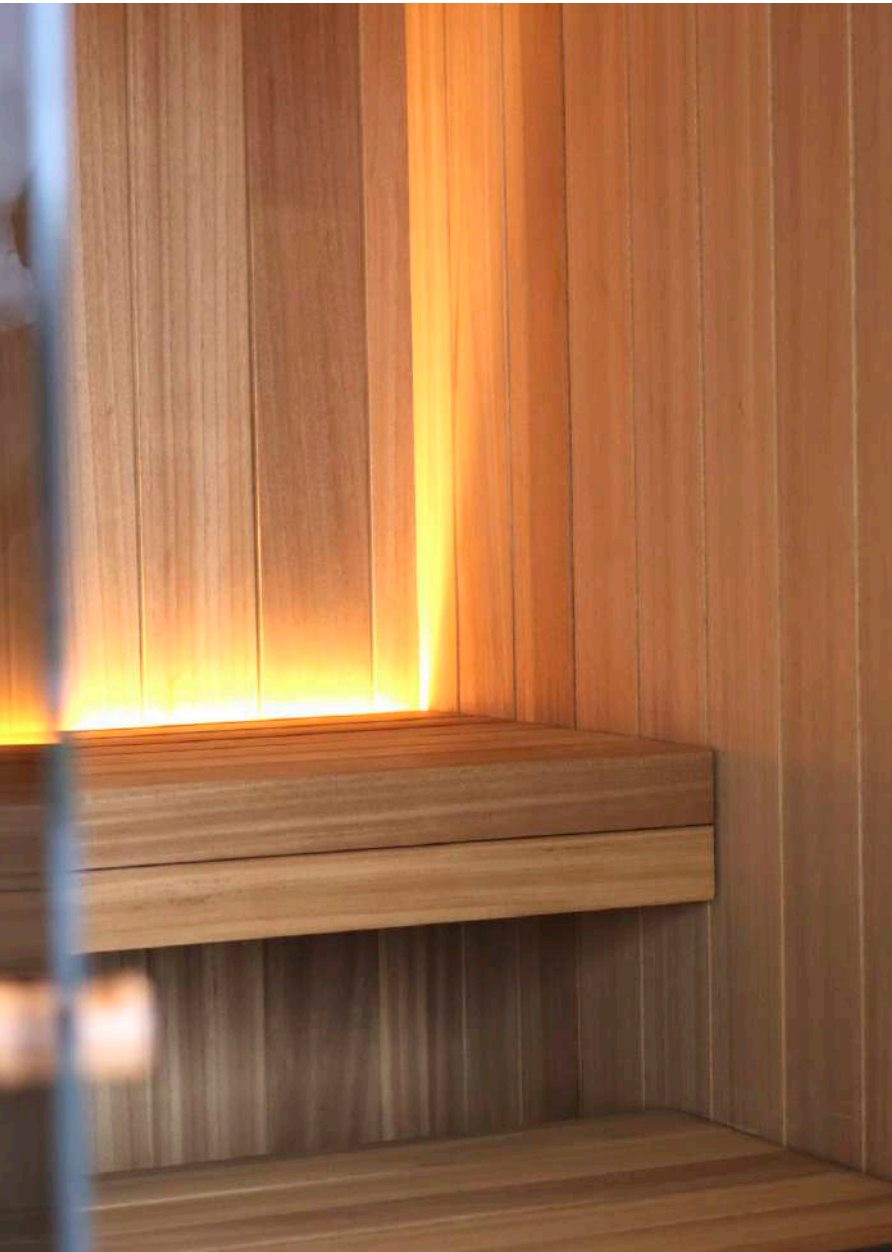

Solid construction: Built on a sturdy SLS timber frame, like a timber-frame house, for long-term durability.

Insulated comfort: Double-walled and fully insulated with glass wool for excellent thermal and acoustic performance.

Elegant finish outdoor: Features EPDM roofing and a hidden technical zone, keeping the microcement surface clean and consistent on all sides for a sleek, modern look.

Color options: Available in 6 standard natural tones, with additional custom colors on request.

Your sauna, your style, your choice

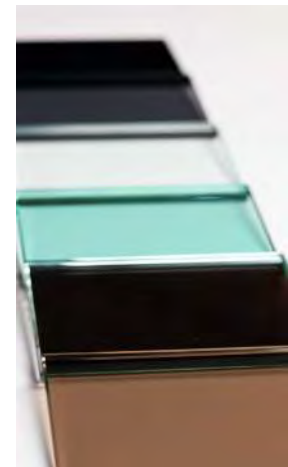

Step into the future of saunas.

A revolution in sauna design – it's time for the second wave of innovation. While conventional saunas may share a common appearance, we challenge the status quo. Beyond its primary function as a relaxation haven, we believe aesthetics play a crucial role.

Dare to be different.

Dare to be different, as you can now tailor your sauna to reflect your unique style. Make a statement, craft a masterpiece!

With a palette of over 50 exterior colors, the customization possibilities extend to glass, hinges, and doorknobs. We present a multitude of options, allowing you to personalize every aspect of your sauna experience.

A window of opportunities.

At Thermalux, you can choose from a wide range of saunas and steam rooms – in standard sizes or fully custom-made. Whatever you choose, personalization is key: from materials and colors to layout and accessories.

Looking for a specific size, custom bench layout, or integrated relaxation area? No problem. We go beyond standard solutions to create the sauna or steam room that fits your vision, with the level of luxury and quality you expect from Thermalux.

Your Thermalux, exactly how you want it

International distributor network.

Thermalux products are available through a trusted network of official distributors across Europe, North America, and beyond. As our network grows, we bring our quality and expertise closer to customers worldwide. No dealer nearby? We'll support and deliver to you directly - wherever you are.

Intellectual property.

We are very proud of our designs. We have put a lot of time, money and energy into development. That is why we have technical patents and design protections. It assures our distributors of their smart investment in us.

This is Thermalux.

Every Thermalux sauna is made with care in our own factory in Belgium. We believe in honest craftsmanship, local production, and durable materials. This allows us to guarantee top quality and to respond flexibly to your wishes. From design to delivery, your wellness project is in the hands of people with a real passion. We don't just build saunas. We create wellness experiences that are unique and uniquely yours.

We look forward to creating yours.

Mario & Lauren Mertens - Owners of Thermalux.
Father & daughter, proudly running our family business.

Products

Thermalux offers a wide range of luxury design saunas and steam rooms suitable for both **indoor and outdoor use**. All our collections and models can be customized to meet your specific needs and preferences. Combining multiple models in a single unit is also possible. For instance, you can choose a sauna with an overhang and an attached storage room, or opt for a unit that combines a sauna and a steam room.

Since all our products are crafted entirely in Belgium, **tailor-made solutions** are possible. From dimensions to finishes and additional features, everything is designed to match your vision.

In addition to our large versions with two benches, we also offer **compact versions** with a single bench. These are ideal for those who prefer a more intimate space, or for installations in small city gardens or rooftop terraces.

For specific inquiries or tailored advice, please contact us.

Practical

Our saunas are **available across Europe and North America**. In areas without an official dealer, we ship directly to end customers. All units are carefully packaged to ensure safe transportation, and we can arrange the shipping for you.

Each unit is **pre-assembled** at our factory and can be installed using a crane or an outdoor manitou with forks, compact units even with a pallet stacking truck. For those who prefer **self-assembly**, our PUU collection is available as a self-assembly kit. Installation by our team on-site is possible on request.

All saunas can be connected to either **220/230V or 400V (3F+N)** power supplies. Steam rooms can be connected to **220/230V**. An electrician is necessary to connect the sauna.

A stable, hardened, and level surface is required for installation. Suitable bases include reinforced concrete slabs, tiles, wooden platforms, or screw piles. Soft surfaces such as sand or grass are not allowed. Ensure the subsurface can support the sauna's weight.

For detailed technical specifications and requirements, request our technical documentation.
